

## FOOD SAFETY AND QUALITY POLICY

As a consequence of **ESCAMILLA SAT 2080's** commitment to quality and food safety, from the Management of this company, and through this Policy, we want to transmit both to our members and to anyone related to us or to our products, directly or indirectly, our principles of commitment regarding quality, food safety and social and environmental commitment.

**ESCAMILLA SAT 2080** has a Food Safety System based on the standard of IFS International.

All this is reflected in the continuous improvement of its effectiveness in order to comply with the legal and regulatory requirements and those mutually agreed with their clients. All this means:

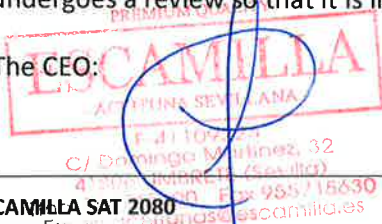

- . Our ultimate goal is to maintain the highest level of quality and food safety in all our products.
- . To maintain the maximum level of efficiency, **ESCAMILLA SAT 2080's** activities have been systematized in procedures and technical instructions, and an analysis system has been implemented of hazards and critical control points (HACCP) that complies with current legal requirements.
- . There are communication channels, both internal and external, that allow us to respond to information demands related to the food safety management system.
- . Ensure compliance with legal and regulatory requirements (ethical, environmental and labor included) and those agreed with customers on the safety of the products and on the agreed services.
- . Our organization declares through this Policy its intention to comply with the obligation to manufacture safe, legal and authentic products,
- . The improvement in food safety guarantees and improvement of our processes goes through an improvement of resources / both human and material.
- . The management of the company as well as its managers will ensure environmental care of their actions as a consequence of the development of their production processes.

The management has documented and implemented the Food Quality and Safety objectives, which are consistent with the general objectives of the organization and with this policy.

Management undertakes to review this policy periodically and to make the necessary adjustments to the quality and food safety management system to ensure that it is maintained in compliance with the legal requirements, that safe and high-quality products continue to be produced and improved continuously the effectiveness of the system.

This Policy is the means to lead the organization towards the improvement of its Management System, with which it remains exposed in a visible place for all personnel and is communicated to all levels of the organization each time it undergoes a review so that it is implemented and maintained.
