

QUALITY, ENVIRONMENT AND FOOD SAFETY POLICY

As a consequence of ESCAMILLA SAT 2080's commitment to quality, the environment and food safety, from the Management of this company, and through this Policy, we want to transmit both to our members and to any person related to us or to our products directly or indirectly, our principles of commitment in terms of quality, food safety and social commitment and with the environment.

The Management of ESCAMILLA SAT 2080 focuses its Food Safety System based on the IFS international standard.

All of this is reflected in the continuous improvement of its effectiveness in order to comply with legal and regulatory requirements and those mutually agreed with its clients.

All this means:

- Our ultimate goal is to maintain the highest level of quality and food safety in all our products, always protecting the environment and minimizing contamination.
- To maintain the highest level of efficiency, the activities of ESCAMILLA SAT 2080 have been systematized in procedures and technical instructions, and a system of hazard analysis and critical control points (HACCP) has been implemented that complies with current legal requirements.
- There are communication channels, both internal and external, that allow responding to requests for information related to the food safety management system.
- Guarantee compliance with legal and regulatory requirements (ethical, environmental and labor included) and those agreed with customers on the safety of products and on agreed services.
- Our organization declares through this Policy its intention to comply with the obligation to manufacture safe, legal and authentic products,
- The improvement in food safety guarantees and improvement of our processes requires an improvement in resources, both human and material.
- The company's Management as well as its Managers will ensure the environmental care of their actions as a consequence of the development of their production processes and will favor the improvement of the environmental behavior of our clients and interested parties.
- Our organization has developed and implemented a Culture of Quality and Food Safety among all the personnel of our organization that makes them participants in the development and aggrandizement of our company.

Management has documented and implemented the Quality, Environment and Food Safety objectives, which are consistent with the general objectives of the organization and with this policy.

The Management undertakes to review this policy periodically and to make the necessary adjustments to the management systems to ensure that they remain in compliance with legal requirements, that safe and high-quality products continue to be produced, and that the effectiveness of such systems is continuously improved. quality systems, environmental management and food safety.

This Policy is the means to lead the organization towards the improvement of its Management System, with which it remains exposed in a visible place for all personnel and is communicated to all levels of the organization each time it undergoes a revision so that it is implemented and maintained.
